

Today, Epicor is a recognized leader and provider of comprehensive global business solutions for midmarket companies and divisions of Global 1000 enterprises.

Global provider

Epicor is a global leader in business software solutions serving approximately 20,000 customers in over 150 countries with software solutions that support more than 30 languages. With more than 40 years of operating history and innovation, Epicor delivers comprehensive software solutions with a sophistication and maturity that competes with tier-one vendors, but at a fraction of the cost.

A history of innovation and leadership

A technology innovator, Epicor was one of the first software companies to develop its solutions on technology platforms optimized for the midmarket. Epicor continues this commitment to leading-edge solutions with industry-specific functionality. This strategy has enabled Epicor to continually adapt to the latest technologies available while allowing customers to protect their investment. Epicor helps businesses rapidly respond to change, adjust for growth, and maintain their competitive advantage.

- ▶ Comprehensive, integrated solutions available in the cloud, hosted, or on premises
- ▶ Industry-specific solutions
- ▶ Advanced functionality and integration
- ▶ Rapid and cost effective implementations
- ▶ Single source for end-to-end business software solutions

“We found that the all-in cost of deploying the Epicor solution was somewhere in the range of one-third to one-half the cost of a typical ‘big iron’ ERP.”

Randy Benz, Chief Information Officer | Energizer Holdings

Solution and product portfolio

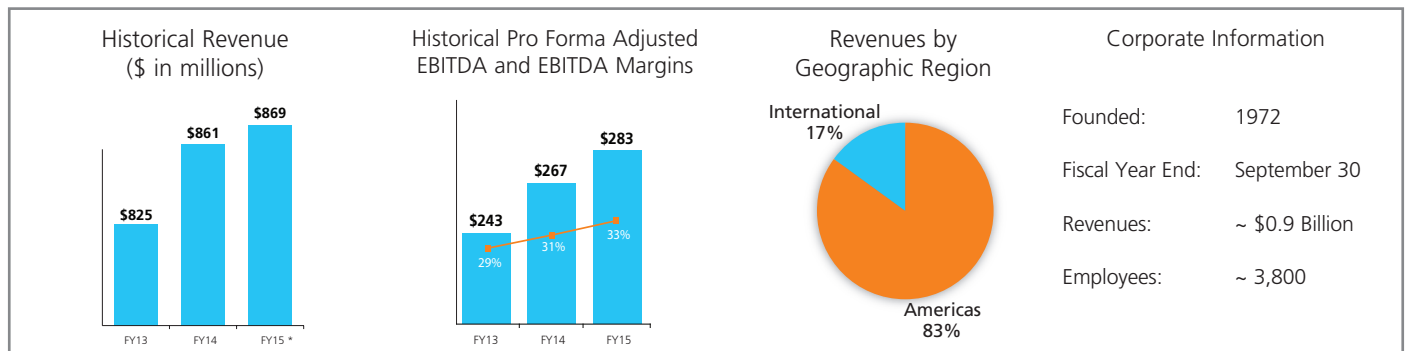

Epicor is dedicated to providing integrated enterprise resource planning (ERP), point of sale (POS), supply chain management (SCM), and human capital management (HCM) software solutions. These solutions can be delivered on premises, hosted, or in the cloud. Leveraging innovative technologies like Web services, Epicor develops end-to-end, industry-specific solutions for manufacturing, distribution, retail, and services that enable companies to immediately drive efficiency throughout business operations and build competitive advantage. With the scalability and flexibility to support long-term growth, Epicor solutions are complemented by a full range of services, providing a single point of accountability to promote a rapid return on investment and low total cost of ownership.
